Lincoln KB 1932

M 1:12

arcurio® is manufacturing the model of this good looking Oldtimer, the "1932 Lincoln KB", according to the company's own plans from prime European wood.

In the 30ies the Lincoln was an uncompromising Luxury Car, which many wanted to own but only few could afford. At the time this top of the line model carried the astronomical price tag of \$ 4,800. For comparison: A workman back then earned approx. \$ 3 per day. Due to the incredibly high price demanded by the manufacturer, of the "1932 Lincoln KB Dual Cowl Sport Phaeton" only 30 units were actually sold.

Composition of Materials used

There are 3 different types of wood used in the model: Alder, Ash and Maple. The wood itself is left completely natural; it is not painted or otherwise chemically treated. The various parts of the model are assembled with great care and perfection in order to achieve a good matching of the wood-grains. This high quality model of the elegant 1932 Lincoln KB is composed of 78 parts.

Particular Features of the Model

All arcurio® Oldtimer Models are handmade. The wood employed is carefully selected and matched according to the individual wood-grains.

This stunning replica is produced in the very limited edition. Each model is crafted individually and therefore carries a brass plate with its engraved model type and production number. This Lincoln model displays the following special features:

- Wheels are turning
- Two spare wheels embedded in the fenders
- The container in the rear is fastened with a leather strap

Size

The Model is 44 cm long, 15 cm high and 14 cm wide; it is produced at a scale of 1:12 and is supplied in a valuable, wooden engraved box, serving as a garage.
