Kenworth Truck M 1:12

arcurio®
Collect & Play

arcurio® is manufacturing the model of this good looking Truck according to the company's own plans from prime European wood.

The Kenworth Truck is a legend on American Highways. Each owner appears to be hotly in love with his/her truck, evidenced by the dedicated care for the truck's accessories like the ever shining exhaust pipes, or the hub caps, which you can literally use as a mirror. Which goes to show: Not only children want to play! The Kenworth is built with engines of 10-16-liters in size, generating up to 600 HP.

Composition of Materials used

There are 3 different types of wood used in the model: Alder, Ash and Maple. The wood itself is left completely natural; it is not painted or otherwise chemically treated. The various parts of the model are assembled with great care and perfection in order to achieve a good matching of the wood-grains. This high quality model of the impressive Kenworth Truck is composed of 128 parts

Particular Features of the Model

All arcurio® Oldtimer Models are handmade. The wood employed is carefully selected and matched according to the individual wood-grains.

This model replica is produced in the very limited edition. The model series are of limited number. Each model is crafted individually and therefore carries a brass plate with its engraved model type and production number. The Kenworth Truck Model displays the following special features

- Trailer to be disconnected
- Removable load
- Adjustable U-shaped beams
- Fold-out stands for trailer
- Plus many other refinements

Size

The model is (without trailer) 43 cm long, 19 cm high and 16cm wide. The Trailer itself is 45 cm long, 20 cm high and 16 cm wide. The model is produced at a scale of 1:12 and is supplied in a valuable, wooden engraved box, serving as a garage.
